

# Returning to a Natural Ending

*A workshop on a more natural/ecological approach to death and dying*

 Death Midwifery — continuum of support through pan-death care

 family-directed, at-home post-death care — 'home funeral'

 personalized vigils/rites and funeral/memorial services

 green burials, eco-coffins/shrouds

 and other options

(NOTE: all the above are options to — and don't require — the services of a funeral home)

To make arrangements for this Power Point Presentation to be shown to your group, please contact us
